

COMMERCIAL DIFFUSED & OPEN

LOCASTE SERIES

The Locaste family of luminaires incorporate lens and diffusers held in a metal frame which has a hinged latching system holding the assembly securely to the body. The unique universal body design allows the luminaire to be surface mounted, T/Bar recessed; or with the addition of the PF frame, recessed into a suspended plaster ceiling.

The Locaste may also be manufactured as a dedicated suspended plaster ceiling luminaire or supplied to accommodate 246mm x 20mm AC slots for air delivery or return.

UNIVERSAL MOUNTED T5

Locaste Universal Mount

Single tube 200mm wide models suitable for either surface mounting or recessed T/Bar mounting. For recessed plaster mounting use plaster frame as shown in accessories below. x designates diffuser type. Y5, Y7, K12, K15, K19, K19T silver tint or opal lay-in diffuser.
