

# DOWNLIGHTS

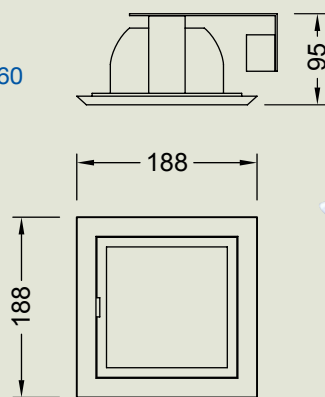

## ARIEL COMPACT FLUORESCENT DOWNLIGHTS

The Ariel square compact fluorescent downlights are available in nominal 150mm & 200mm modules. Reflectors are in a specular finish & they are enclosed with a regressed tempered glass cover. They are designed for compact fluorescent lamps mounted in a horizontal position. Gear is supplied in a remote box. Lamps are TC-D type when used with conventional control gear & TC-D type when used with electronic control gear. They may be supplied for hard wiring or fitted with flex & plug.
