

DOWNLIGHTS (HID)

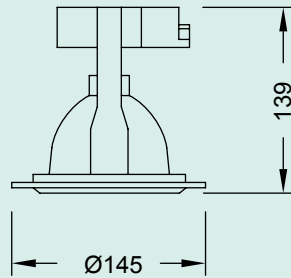

MIRACH HID DOWNLIGHTS

High efficiency recessed Downlights suitable for 70/150W G12 single ended metal halide lamps. The housing is powder coated high-pressure die cast aluminium with a high purity, precise, optically designed aluminium reflector. The lamp is enclosed by a tempered glass UV filter making this the ideal downlight for all facets of accent lighting, task lighting and general lighting. Supplied standard with electronic control gear, will assist with ECOSmart building design and accreditation.
